CAREER OBJECTIVE

Computer Engineering graduate with hands-on experience in full-stack web and backend development. Skilled in React.js for frontend development and C#/.NET for backend systems, with a strong background in building scalable, user-centered applications. Seeking to contribute to impactful software projects in a collaborative and growth-oriented environment.

WORK EXPERIENCE

SİMTERNET, INC. – INTERN, .NET DEVELOPER

AUGUST 2023 – SEPTEMBER 2023

- Designed and developed a .NET-based desktop application enabling remote communication with printers.
- Implemented device communication logic to support remote control and monitoring.
- Built a user-friendly desktop interface, improving operational usability.

MT TECHNOLOGIES AND COMPUTER SYSTEMS – INTERN, FULL-STACK DEVELOPER

NOVEMBER 2023 – MARCH 2024

- Performed code analysis and interpretation on existing systems.
- Worked on decryption and analysis of encrypted code structures.
- Contributed to mobile application design, focusing on functionality and usability.

SNT SOFTWARE AND FINANCIAL TECHNOLOGIES – INTERN, BACKEND DEVELOPER

AUGUST 2024 – SEPTEMBER 2024

- Contributed to the development of backend services for financial software solutions.
- Designed and implemented database models to support scalable and secure systems.
- Assisted in backend logic development with a focus on data integrity and performance.

SNT AKADEMİ – WEB & FULL-STACK DEVELOPER (PROJECT-BASED)

AUGUST 2025 – SEPTEMBER 2025

- Developed a Turkish–English website translation package to enable multilingual content management.
- Built a web-based To-Do List application using React, TypeScript, and FastAPI, implementing full CRUD functionality.
- Integrated frontend and backend layers to ensure real-time data handling and smooth user experience.
- Delivered reusable and modular components suitable for educational web platforms.

PHARMAHAN – WEB DEVELOPER (PART-TIME)

SEPTEMBER 2024 – JULY 2025

- Developed modern web interfaces using Vue.js and React.js.
- Designed and enhanced UI/UX components with a user-centered approach.
- Worked with AWS services to support cloud-based, scalable application infrastructure.
- Contributed to production-level frontend development and system integration.

SKILLS

PROGRAMMING LANGUAGES

- Python
- JavaScript
- TypeScript
- C#
- C++

FRONTEND DEVELOPMENT

- React.js
- Vue.js
- HTML5, CSS3
- UI / UX Design Principles

BACKEND DEVELOPMENT

- FastAPI
- .NET
- RESTful API Development
- Database Design & Modeling

MOBILE DEVELOPMENT

- Flutter
- Dart

COMPUTER SCIENCE FUNDAMENTALS

- Object-Oriented Programming (OOP)
- Data Structures & Algorithms
- Assembly Programming

DATA & ARTIFICIAL INTELLIGENCE

- Data Analysis
- Deep Learning
- NLP
- MATLAB

CLOUD & DEVOPS

- AWS (Lambda, API Gateway, RDS, Cognito)
- Git & Version Control

LANGUAGES

- Turkish – Native
- English – B2
- German – A2

EDUCATION

Computer Engineering

October 2021 – January 2026

Düzce University

Bachelor's Degree

LEADERSHIP & ACHIEVEMENTS

TEKNOFEST Finalist | Tourism Technologies Category

- Developed a mobile application using Flutter & Dart aimed at enhancing tourism experiences. Selected as a finalist among thousands of competitors nationwide.

Vice President of Student Commission | Düzce Chamber of Commerce & Industry | Nov 2023 – Nov 2024

- Directed the Software Department, overseeing technical workshops and coordinating student-led technology projects.
 - Managed budgets and resource planning for university-industry collaboration events.
-

CERTIFICATIONS

- TÜBİTAK 2209-A – University Students Research Projects Support Program
- Deep Learning Onramp – MathWorks (MATLAB)
- Solana Blockchain Developer Bootcamp – Rust & JavaScript
- Data Structures and Algorithms: Software Engineering Interviews – Atıl Samancıoğlu
- Python Programming for Data Science – Miuul
- Python Bootcamp (100 Days) – Atıl Samancıoğlu
- Modern Web Development – JavaScript, Express.js, React, Angular
- Object-Oriented Programming with C++
- Computer Architecture & Assembly Programming
